PROFESSIONAL SUMMARY

Young, multidisciplinary tech professional with hands-on web development and penetration testing experience. Currently at Amanda Technologies building secure websites and performing vulnerability assessments. A natural researcher and voice-over artist who combines technical precision with clear, confident communication. Eager to add immediate value to teams needing a security-conscious developer who learns fast and thinks like an attacker.

TECHNICAL SKILLS

Web Dev: HTML5, CSS3, JavaScript, PHP, MySQL, WordPress, responsive design, Git, React.js basics

•Cybersecurity: Kali Linux, Burp Suite, Metasploit, Wireshark, Nmap, OWASP Top 10, vulnerability assessment, web app security, basic exploit development

Voice/Audio: Commercial narration, e-learning voice-overs, audio editing (Audacity)

·**Soft:** Research, report writing, client communication, self-directed learning

WORK EXPERIENCE

Amanda Technologies | Kampala, Uganda

Web Developer & Security Analyst | [2021]– Present

- Build and maintain secure, SEO-friendly client websites using modern web technologies.
- Perform regular penetration tests and vulnerability assessments, patching issues like SQL injection.

Research emerging threats and maintain the company's internal security knowledge base.

- Collaborate with design and backend teams to deliver high-performance, hardened solutions.

Freelance Voice Over Artist | [2024] – Present

Deliver professional voice-overs for TV, radio, and e-learning projects, with full audio editing.

- Interpret scripts to match brand tone while consistently meeting tight deadlines.

PROJECTS

Personal Site (katosolomon.ct.ws): Portfolio showcasing web dev, security write-ups, and voice demos; built with secure forms and mobile optimisation.

Home Lab: Virtual environment (Kali, Metasploitable) used for hands-on penetration testing practice and documentation.

Secure E-Commerce Demo: Full prototype with authentication, cart, and payment simulation; self-tested and hardened with Burp Suite.

Security Blog (in progress): Plain-English CTF breakdowns and vulnerability analyses to deepen technical communication.

EDUCATION

Uganda Certificate of Education (**UCE**) – St Mbaagas College Naddangira

· Certificate in Computer Science – **YMCA Comprehensive Institute**

CERTIFICATIONS & LEARNING

Certified Ethical Hacker (**CEH**) – In progress (**EC-Council self-study**)

Active on **TryHackMe (top 5%)**, **PortSwigger Web Security Academy**, **TCM Security**

Completed: **The Complete Web Development Bootcamp (Udemy)**, **Practical Ethical Hacking (TCM)**

LANGUAGES

English (**Fluent**)

Luganda (**Native**)

Additional local languages available
